Our former MCU team did not receive a refund for any of our losses. I also just found out former MCU teams will not recieve SLYSA credits for the spring SLYSA fees that each team members family paid. SLYSA said they "belong to MCU, and are tied up with MCU and their lawyers". I guess that means our team's (and every other former club member's)credit money may be considered an MCU asset (He) actually still has, (along with the uniforms we all turned in). Just a thought, if anyone was going to persue this.
